

How to use Winning Colours® Stain Remover

Winning Colours Stain Remover is a versatile stain remover and cleaning solution that is kind to skin and the environment, but solves many of life's cleaning challenges – simply.

Precautions: Use only on a surface that is water-safe (most surfaces). Paper, uncoated wood and sensitive wool carpet are examples that are not water-safe. If in doubt, try in an inconspicuous area.

1. PAINT MESSSES

Latex, oil or spray - paint messes have never been so easy to clean-up, which is why Winning Colours is a painter's best friend!

For surfaces such as carpet, upholstery and floors:

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with fingertips to loosen the stain from the material being cleaned (until you can see the stain has mixed with Winning Colours)
- Step 3 – Wipe or dab carpet to remove product and stain
- Step 4* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 5 – Dab away the water and stain gently with a clean cloth
- Repeat steps 4 and 5 until all stain residue is gone

TIP: For quicker removal of stains use a Carpet Cleaner/Extractor filled with plain water in place of steps 3 and 4.

On skin (also markers or ink):

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with fingertips to dissolve
- Step 3 – Rinse under running water or with a damp cloth

To clean paint brushes (still wet):

- Step 1 – Apply just enough Winning Colours to moisten the brush/roller
- Step 2 - Rub with fingertips to loosen the paint from the brush/roller being cleaned (until you can see the paint has mixed with Winning Colours)

- Step 3 – Rinse thoroughly with water
- Step 4 – Dry with a clean cloth

To clean paint brushes (dried):

- Step 1 – In a glass jar put enough Winning Colours to cover the bristles
- Step 2 – Allow to soak overnight
- Step 3 – Rinse thoroughly with water
- Step 4 – Dry with a clean cloth
- Step 5 – Repeat if necessary

2. STAINS

Wine stains, fruit juices, blood, nail polish, lipstick, shoe polish and grease can be removed safely and easy wherever you are.

For surfaces such as carpet, upholstery and clothing:

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with fingertips to loosen the stain from the material being cleaned (until you can see the stain has mixed with Winning Colours)
- Step 3* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 4 – Dab away the water and stain gently with a clean cloth
- Repeat steps 3 and 4 until all stain residue is gone

TIP: For quicker removal of stains use a Carpet Cleaner/Extractor filled with plain water in place of steps 3 and 4.

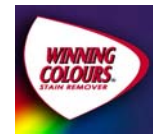

For dried nail polish:

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with scouring sponge or toothbrush to loosen the polish
- Step 3* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 4 – Dab away the water and stain gently with a clean cloth
- Repeat steps 3 and 4 until all stain residue is gone

3. PET MESSES

Pet messes of all kinds are now easier to clean up than ever before.

Notes: * This is the key step (as water is Winning Colours best friend), where you should see the water instantly penetrate the stain and clean the surface that had the stain on it.

For surfaces such as carpet, upholstery and pet beds:

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with scouring sponge or brush to loosen the stain
- Step 3* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 4 – Dab away the water and stain gently with a clean cloth
- Repeat steps 3 and 4 until all stain residue is gone

4. VEHICLE DETAILING

Car, Truck, Boat or RV detailing inside and out can be done quickly and safely using Winning Colours. (Please note that you should never clean your car in direct sunlight.)

For carpets:

- Step 1 – Apply just enough Winning Colours to moisten the stain
- Step 2 - Rub with fingertips to loosen the stain from the material being cleaned (until you can see the stain has mixed with Winning Colours)
- Step 3* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 4 – Dab away the water and stain gently with a clean cloth
- Repeat steps 3 and 4 until all stain residue is gone

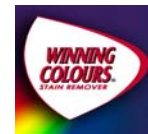

For upholstery:

- Step 1 – Dilute 1 parts Winning Colours with 4 parts water in a trigger spray bottle
- Step 2 – Apply to upholstery
- Step 3- Rub with finger or brush to loosen the stain
- Step 4* – Hit with water – ideally from a spray bottle that has a concentrated jet stream coming out (better than a mist or pouring it on)
- Step 4 – Dab away the water and stain gently with a clean cloth

For tires and rims:

- Step 1 – Spray just enough Winning Colours to make a light film directly on the tires/rims
- Step 2 - Rub with non-abrasive scouring sponge or brush to loosen the dirt
- Step 3* – Thoroughly rinse with water

Notes: * This is the key step (as water is Winning Colours best friend), where you should see the water instantly penetrate the stain and clean the surface that had the stain on it.

5. LAUNDRY

For pre-wash stain removal:

- Step 1 – Apply liberal amount of Winning Colours to stain and rub gently
- Step 2 - If stain is food, blood, grass or grease based, let soak for 10-15 minutes. If stain has been allowed to dry let soak for half an hour.
- Step 3 – If stain is paint, dye, wine/juice garment may require additional soaking.
- Step 4 – Launder garment as usual.
- Step 5: Repeat for stubborn stains if necessary.

Please note: *Drying in the dryer will set the stain into the garment. Be sure to remove the entire stain before drying the garment.*

For a laundry booster:

- Step 1 - Add up to a ¼ cup of Winning Colours (for a full load)
- Step 2 - Reduce detergent by half
- Step 3 - Wash as usual

6. GENERAL CLEANING

Household surfaces are quickly and simply cleaned with Winning Colours.

For counters, cupboards, walls and floors:

- Step 1 – Dilute 1 parts Winning Colours with 4 parts water in a trigger spray bottle
- Step 2 – Apply to surface
- Step 3- Wipe with cloth or paper towel

For sinks, tubs and toilets:

- Step 1 – Squirt a small amount of Winning Colours round the fixture
- Step 2 - Rub with non-abrasive scouring sponge or brush to loosen the dirt
- Step 3 – Rinse with water
